PROFESSIONAL SUMMARY

Innovative and motivated full-stack web developer with a strong problem-solving mindset and a creatively driven approach. Proficient in Java, Spring MVC, Python, HTML, CSS, and JavaScript, with hands-on experience building dynamic web applications using React and Django. Recently completed an intensive bootcamp, further enhancing expertise in full-stack development and modern web technologies. Skilled in integrating APIs, managing databases, and delivering user-focused digital solutions. Known for clear communication, effective collaboration using Git, and a commitment to leveraging technical skills to create impactful software solutions.

SKILLS

- JavaScript
- Python
- React
- Django
- Bootstrap
- HTML
- CSS
- RESTful APIs
- Java
- Spring MVC
- MySQL
- SQLite
- VS Code
- GitHub
- Analytical Thinking
- Attention to Detail
- Problem Solving
- Creative presentations
- Good time management

PROJECTS

Full-Stack Group Project: Travel Blog *Node.js, Express, React, MySQL, RESTful APIs*

- Developed a responsive travel blogging platform with user authentication, commenting, and category filtering.
- Built a dynamic React front-end and integrated a MySQL database for secure and efficient data management.
- Collaborated in an Agile team using GitHub for version control to deliver polished, user-focused features.

Full-Stack Portfolio Website *React, HTML, CSS, JavaScript*

- Designed and deployed a responsive personal portfolio website showcasing projects and skills.
- Implemented modular components in React with reusable code architecture.

Blog Application *Node.js, Express, HTML/CSS, JavaScript, MySQL*

- Built a blog platform with full CRUD functionality, user authentication, and category filtering.
- Integrated MySQL database for data storage and RESTful API routes for dynamic content updates.

NGO Website *Bootstrap, HTML, CSS, JavaScript*

- Developed a multi-page static site for a non-profit, featuring donation forms and event pages.

- Optimized for mobile devices, improving accessibility and user engagement.
